

EL KARAMA LODGE

L A I K I P I A

Rooming Information

THE BANDAS

- Banda One** - Double ensuite
- Banda Two** - Twin ensuite
- Banda One** - Double ensuite
- Banda One** - Double ensuite

The bandas are a delightful combination of canvas, stone and thatch, with plenty of space and light. We can add a single camp bed or cot to any of the bandas.

Bandas One to Three are on the right of the main sitting room, and Banda Four is to the left.

SAFARI TENTED ROOM

Two adjoining ensuite safari tented rooms, with a spacious area outside for children to play in. This is a temporary replacement for The Rondavel, which is being converted into our Bush Spa.

THE HOBBIT HOUSE

Also known as the Upstream Cottage, these family rooms are built from sturdy river stones and consist of one big master double with two mezzanine-level single beds (suitable for children aged seven years and above), and an adjoining twin room.

They all share a large ensuite bathroom. It is the furthest room on the left of the main sitting room and very private.

THE RIVER CAMP

River Cottage One - Double or twin ensuite, with outdoor bathtub.

River Cottage Two - Double or twin ensuite

The River Camp is a fairly recent addition to the lodge and set up to be more private and secluded. It's about a ten minute walk or two minute drive from the main lodge. Guests can enjoy all of the lodge facilities at their leisure, or retreat to their own space when they want to.

The tents are spaced roughly 50 metres apart, with their own private dining and sitting room in between. Meals can easily be served in the private dining area on request. The river cottages can have extra camp beds or cots added if necessary.
